Director  
Philip Stokoe & Associates

Philip is a Psychoanalyst in private practice working with adults and couples, and an Organisational Consultant, providing consultation to a wide range of organisations. He worked in the Adult Department of the Tavistock & Portman NHS Foundation Trust between 1994 and 2012, finishing as Clinical Director from 2007.

During his career, he has been responsible for the creation of innovative services; designing a treatment system for very dangerous adolescents held in a Youth Treatment Centre; developing a model for understanding organisations called the Healthy Organisation Model from which, he created an innovative intervention for teams and organisations, the short course intervention, which combines teaching and consultation; he designed the Primary Care Psychotherapy Consultation Service (PCPCS), and these ideas have led to a radically different approach to training psychiatric nurses, which has been running at City University.

He is a member of the European Psychoanalytic Federation Forum on Institutional Matters, which studies the nature of psychoanalytic institutions.

His book, [The Curiosity Drive: Our Need for Inquisitive Thinking](#), was published by Phoenix Publishing House in November 2020.
